REPORT ON WORLD ENVIRONMENT DAY 2026 CELEBRATION

The IQAC, NSS Unit, and Nature Club of National College of Pharmacy jointly organized World Environment Day 2026 celebrations on 05 June 2026 with the theme **“Inspired by Nature. For Climate. For Our Future.”** The programme aimed to promote environmental awareness and encourage students to actively participate in conservation initiatives.

As part of the celebration, a **Tree Plantation Programme** was conducted on the college campus. Faculty members, NSS volunteers, Nature Club members, and students enthusiastically participated in planting saplings, emphasizing the importance of increasing green cover and protecting the environment for future generations.

Another major activity of the day was the **distribution of saplings to students**. A variety of plant saplings were distributed with the objective of encouraging students to plant and nurture trees in their homes and communities. The initiative highlighted the role of every individual in combating climate change and preserving biodiversity.

An Awareness Wall was also arranged, where students displayed messages, quotes, and creative ideas related to environmental protection, sustainable living, and climate action. The activity provided a platform for students to express their commitment towards environmental conservation and inspired others to adopt eco-friendly practices.

The programme successfully created awareness about environmental issues and reinforced the importance of collective action in protecting nature. The organizers expressed their gratitude to all participants and encouraged them to continue supporting initiatives that contribute to a cleaner, greener, and more sustainable future.
