

Blood Donation Camp (17th Feb. 2026)

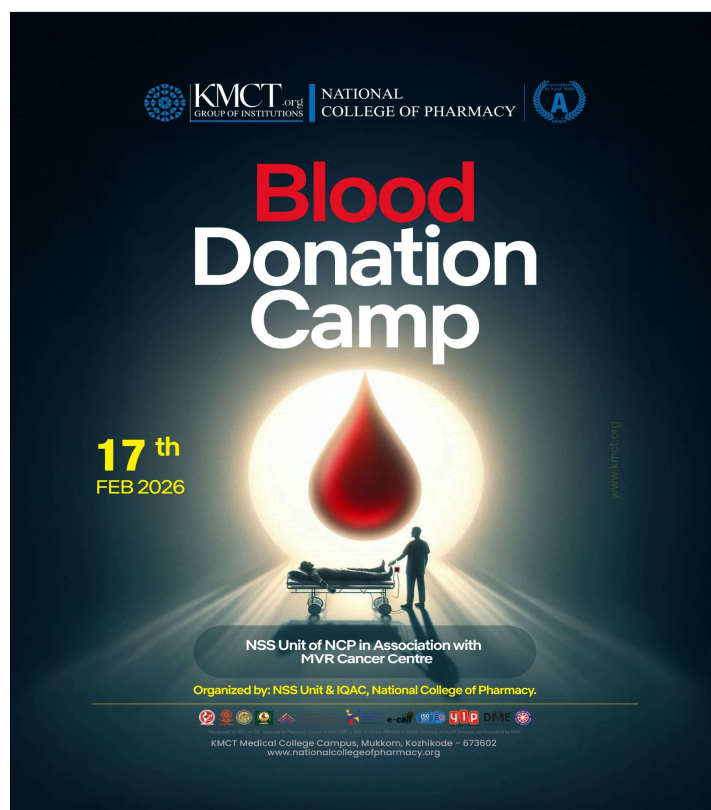

The Blood Donation Camp was successfully organized by the NSS Unit and IQAC of **National College of Pharmacy**, functioning under the KMCT Group of Institutions, on 17th February 2026 at the college campus. The camp was conducted in association with **MVR Cancer Centre**, aiming to support patients in need of blood and to promote social responsibility among students and staff.

The programme was coordinated by the **NSS Unit** volunteers with active support from faculty members. The camp began with registration and preliminary health screening of donors, including checking haemoglobin level, blood pressure, and general health status to ensure donor eligibility.

Number of students, teaching staff, and non-teaching staff voluntarily participated in the camp. The medical team from MVR Cancer Centre ensured safe blood collection procedures, proper hygiene, and post-donation care. Donors were provided with refreshments and rest facilities after donation.

The camp created awareness about the importance of voluntary blood donation and encouraged young people to participate in life-saving activities. The event also helped strengthen collaboration between healthcare institutions and educational organizations.

Overall, the Blood Donation Camp was a great success and reflected the institution's commitment towards community service and healthcare support. The NSS Unit expressed sincere gratitude to all donors, medical staff, and organizers who contributed to the successful conduct of the camp.
