Report on World water Day 2026

World Water Day was observed on 22nd March 2026 by the students of National College of Pharmacy, KMCT, under the joint organization of NSS and IQAC. The programme aimed to create awareness about the importance of water conservation and sustainable use of water resources.

As part of the observance, a field visit to the **Markaz Water Treatment Plant was organized on 23rd March 2026**. A group of NSS volunteers and students actively participated in the visit.

During the visit, students gained practical knowledge about various stages of water treatment, including filtration, sedimentation, and disinfection processes. The officials at the plant explained the importance of providing safe and clean drinking water to the public and highlighted the challenges in water management.

The programme helped students understand the significance of water conservation and the need to protect water resources for future generations. It also enhanced their awareness of public health aspects related to water quality.

Overall, the programme was informative and impactful, encouraging students to adopt responsible water usage practices in their daily lives.
