

ENVIRONMENT DAY 2025

The Environment Day celebration at National College of Pharmacy on June 5, 2025, organized by the NSS unit in association with the Haritha Keralam Mission, featured a range of impactful activities aimed at promoting environmental awareness and action. Highlights included a Tree/Sapling Plantation Drive with over 100 saplings, including 60 rare species, a "Nature's Pattern" photography contest, and an E-wallpaper and slogan competition themed "Restore Our Earth." A screening of the BBC documentary "The Earth" was followed by a discussion, while students also participated in environment-themed badge-making and an awareness rally. These events fostered a strong sense of responsibility among students toward environmental protection and sustainable living.
