“ADAPTREND”

ADAPTING TO CHANGING TRENDS FOR FUTURE-READY GRADUATES

Introduction

In the rapidly evolving landscape of education and employment, staying ahead of the curve is crucial for preparing future-ready graduates. NCP's commitment to adaptability and innovation is evident through its various initiatives in nurturing innovation, digital learning revolution, entrepreneurship, cutting-edge trends, cinematic insights, and pioneering training for future digital generation. This distinctive approach empowers students with the skills, knowledge, and mindset needed to excel in a dynamic world.

Digital Learning Revolution:

NCP Jingles Podcast

In an era driven by digital transformation, NCP has harnessed the power of digital media to redefine the learning experience through its "NCP Jingles" podcast. This innovative approach to education has revolutionized the way students engage with complex subjects.

Engaging Audio Visual Resources

NCP incorporates audiovisual resources that make complex subjects engaging and understandable. Students can access a diverse range of educational content, from lectures to interviews with industry experts. The use of multimedia promotes self-directed and exploratory learning, allowing students to delve deeper into topics of interest.

Enhanced Student Engagement

At the National College of Pharmacy (NCP), the commitment in providing a transformative learning experience is exemplified by the incorporation of VR-based digital content that offers students a real-time classroom experience. NCP is redefining the way students engage with educational material. This innovative learning method has not only captured students' interest but has also fostered engagement and enhanced understanding.

AI in Pharmacy Workshop

NCP recognizes the transformative potential of Artificial Intelligence (AI) in pharmacy. To equip students with the necessary knowledge and skills, the institution organizes workshops that delve into the integration of AI in drug discovery, personalized medicine, and patient care. These workshops provide students with insights into how AI is revolutionizing the pharmaceutical industry and shaping the future of healthcare.

Personalized Medicine

Tailoring Care to Individuals: Personalized medicine is a groundbreaking concept in healthcare, and NCP places it at the forefront of its curriculum. Workshops and educational sessions illuminate the significance of genomic data and advanced diagnostics in shaping personalized healthcare strategies.

Hands-On Software Training for Pharmaceutical Research

NCP goes a step further in preparing future pharmacy leaders by providing hands-on training on cutting-edge software used in pharmaceutical research. This practical training equips students with skills in data analysis, computational drug modeling, and virtual drug screening. Such training enhances their research capabilities and prepares them to engage in pharmaceutical research that can drive innovation in the industry.

Nurturing Innovation: IEDC, IIC, and E-Cell

NCP's commitment to fostering innovation is exemplified through its Innovation and Entrepreneurship Development Centre (IEDC), Institution's Innovation Council (IIC), and Entrepreneurship Cell (E-Cell).

Workshops, Seminars, and Ideathons: NCP's innovation ecosystem is enriched with a plethora of activities aimed at nurturing creativity. Workshops and seminars provide students with opportunities to learn from industry experts, gaining insights into emerging trends and technologies. Ideathons, on the other hand, encourage students to think critically and develop innovative solutions to real-world problems. These events not only foster an environment where creativity thrives but also help students gain practical problem-solving skills.

Cinematic Insight: Film and Media Club Collaboration

NCP's collaboration with the Film and Media Club adds a unique dimension to the students' learning journey by tapping into their creative reservoirs and promoting interdisciplinary exploration.

Reels Competitions and Photography Contests

The collaboration with the Film and Media Club gives students the opportunity to participate in reels competitions and photography contests. These events encourage students to explore their creative talents and express themselves through visual media. It nurtures skills such as storytelling, cinematography, and visual aesthetics.

Utilization of KMCT Mini Theatre

To facilitate critical analysis and interdisciplinary exploration, NCP makes use of the KMCT mini theatre to screen films. This practice not only enhances visual literacy but also promotes cultural awareness by exposing students to diverse cinematic experiences. It encourages students to think critically about the messages conveyed in films and how they relate to broader societal themes.

Teamwork and Cultural Awareness

Collaboration with the Film and Media Club fosters teamwork among students as they work together on creative projects. It also enhances cultural awareness by exposing students to different cinematic traditions and perspectives. This interdisciplinary approach to learning prepares students to think creatively and critically in an interconnected world.

Pioneering Training for Future Pharmacy Leaders

In the field of pharmacy, staying at the forefront of advancements is essential. NCP's proactive approach to training pharmacy students in cutting-edge trends ensures that they are well-prepared to meet the evolving demands of the healthcare industry.

Strong Institutional Support: NCP provides robust institutional support for its innovation initiatives. This support includes access to cutting-edge facilities, mentorship from experienced faculty members, and funding opportunities for promising projects. Such support empowers students to pursue their entrepreneurial ambitions and turn their innovative ideas into reality.

National Entrepreneurship Challenge (NEC): NCP's dedication to fostering entrepreneurship is evident by its participation in the National Entrepreneurship Challenge organized by IIT Bombay. This competition serves as a platform for students to showcase their entrepreneurial acumen. NCP's remarkable first prize victory in this competition not only brought recognition but also earned the institution a cash prize and coveted online courses, further enhancing the students' entrepreneurial skills.

National College of Pharmacy's distinctiveness lies in its unwavering commitment in preparing future-ready graduates who are equipped to adapt and innovate in a rapidly changing world. Through its focus on nurturing innovation, leveraging the digital learning revolution, promoting cinematic insights, and providing pioneering training in pharmacy trends, NCP has created an educational ecosystem that prepares students not only with knowledge but also with practical skills and a mindset that encourages creativity and adaptability.

TRAINING PROGRAM

National College of Pharmacy recently hosted a two-day hands-on training program on molecular modeling techniques in drug discovery at its Seminar Hall on 24th and 25th of May, 2023. The program was coordinated by Ms. Rejitha K and Ms. Athira.B on behalf of the Department of Pharmaceutical Chemistry. The program was inaugurated by Dr. Balasubramaniam, Research Coordinator, KMCT Group, and welcomed by Dr. Akash Marathakam, Vice Principal of National College of Pharmacy. Delegates from various colleges attended the conference and hands-on session, which was led by the eminent personality, Dr. Abi TG, Associate Professor and research guide in Chemistry, Sacred Heart College, Thevara. The program aimed to provide post-graduate students from colleges offering a post-graduate degree in pharmaceutical chemistry with advanced knowledge and practical skills in molecular modeling, docking, and simulation. AutoDock, a powerful software tool widely used in the pharmaceutical industry for predicting the binding of small molecules to macromolecular targets, played a critical role in the drug discovery process.

WORKSHOP

KMCT Group of Institutions invited Mr. Vignesh Waran, Founder and CEO of Virtual Frontier Robotics on Friday 24th March 2023 for an indepth understanding of 3D designing and 3D printing. The students were delighted to have gained valuable knowledge from his expertise. The interactive workshop gave the students and faculty a clear cut idea on the processes ,types and applications of 3D designing and printing particularly emphasising on the medical field. The one day workshop included live designing of a keychain from scratch and the event was concluded with enquiries fuelled by curiosity. Mr. Vignesh discussed that this indeed is a soft skill to be developed in modern days irrespective of one's career paths and entertained us with his hilarious experiences with various school students across South India. The students were encouraged to send in their own designs as a homework. The event was executed by Mr. Rony K Roy, Innovation and Incubation Officer of KMCT Innovation and Incubation Centre . The students of National college of pharmacy (KMCT Group of Institutions) have attended the event and interacted with chief guest

HANDS-ON SOFTWARE TRAINING FOR PHARMACEUTICAL RESEARCH:

NCP goes a step further in preparing future pharmacy leaders by providing hands-on training on cutting-edge software used in pharmaceutical research. This practical training equips students with skills in data analysis, computational modeling, and virtual drug screening. Such training enhances their research capabilities and prepares them to engage in pharmaceutical research that can drive innovation in the industry.

CYBERPARK VISIT

The E cell members of National college of pharmacy visited KSUM (Cyberpark) Kozhikode on 9th May. The students had a good interaction with the CEO Adish Chakyery and his team members Afsal Niyas and Abhirami. The students got to know the struggles, intricacies and the joys of building and being in a startup. They also came to know how they're growing despite being from different fields, how they're levelling up and the importance of collaboration especially when it comes to marketing and constantly. The day was facilitated and coordinated by KMCT GROUP OF INSTITUTIONS, KERALA 's KMCT Innovation and Incubation Centre (KIIC) and IEDC, NATIONAL COLLEGE OF PHARMACY. Ms Sareena, Assistant Nodal officer accompanied students.
